

Occupational Health Study Day

This 1-day menopause course is for nurses working within an organisation.

20 May 2022 - 9:30 to 4pm

It will give a thorough understanding of menopause, its symptoms and symptoms management, which will give you a clear understanding of how to support an individual within the workplace.

Content includes:

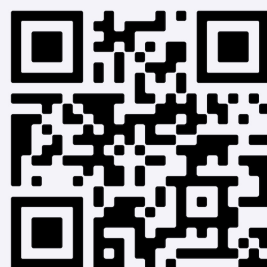

- Menopause: the key facts around what it is, what happens and what's normal
- How menopause could affect someone at work
- Symptoms management including HRT, non-HRT and lifestyle
- How Occupational Health can help and support
- What employers can do, including looking at workplace adjustments

Hosted by:

- Kathy Abernethy
- Henpicked: Menopause in the Workplace

Cost: £120 per person
